The committee shall also in between seminars be a tool for joint actions decided by the national clubs. The committee shall also carry out and implement tasks given the committee by this or future seminars.

Committee members were elected as follows:

2. Each club shall have one member responsible for contacts with the other clubs, regarding the international cooperation. The committee will be responsible for a list to be compiled out of each club's nomination.

3. Club magazines. Each club sends one copy of their magazine to the other clubs, using the addresses in the list mentioned above.

4. Each club gives every other club the right to reprint articles and official results from the club magazines in their own magazine. The source should be stated and any hindrance to reprint given in the original magazine to be respected.

5. The clubs to compile an yearly report updating figures for official results and other statistics (no of litters, puppies, exported/imported dogs, deceases etc).

6. A computer base with information of all known Iceland sheepdogs will be created. Peter O will make a list of which specific information about the dogs to be fed into the computer.

7. Each club to report illnesses occurring nationally that might be a problem or of interest to the other clubs.
