Summary

As usual, in 2015 we had a variety of activities in our club: summer camp in Virrat, herding training & test by Cecilia Person, etc.

We had our club championship competitions in obedience and agility and rally obedience.

In 2015 we had our club dog show in Mikkeli. Judge was Ambjörn Lindqvist. There were 80 dogs in official classes and couple more in unofficial.

2015 was many ways active year and people organizing lots of smaller happening all around Finland. It feels that people have found way to do things together – it could be just walking in forest or training something together.

Further comments:

This year pick up only males who is still active in studding. We have had bigger matadors earlier but these one making situation now. We also have dogs who have more offspring in first generation, but their offspring aren't active anymore. Here are dogs which might be threat in future.

Further comments:

The Finnish Kennel club came up with a new rule that the knee result is valid only for two years if the dog is under three years when the knees are checked. This means that many dogs have been – and will be - checked two times. 2012 is the first year for this rule, so the figure also includes double-checked dogs. There wasn't any tool to pick only one result from each dog.

Statistics overview and comments, shows, descriptions and events

The breeder kept this male and when the dog was 6 months old he was euthanized. One of his sisters has the same problem.

2012 Aitiorannan Blida Beitilyng (Aitioranna Oli Odburi x Aitiorannan Jodis Josefina)

Wry mouth:

2011 Ketunsaran Jóna Fanney (Fox Meadow Jolassveinn x Punapihlajan Alma Fenjudtr)

Autoimmune disease:

Last year one dog got juvenile cellulitis – this was first in Finland.

Mentality descriptions

Descripted dogs		19 / 2	26 / -	22 / 3	29 / -
In total		21	26	25	29

Further comments: The first number is the “old version” Finnish character tested dogs and second is for MH- tested dogs. MH-test doesn't work very well in Finland. Hopefully we will find a solution to this problem in the future and get more dogs to MH.

Working abilities (herding) descriptions
